- Lower overhead costs
- Competitive material costs
- Increased profits

## BUYING KITS REDUCE COSTS ASSOCIATED WITH:

- Purchasing
- Receiving
- Inspection
- Accounting
- Inventory control
- Parts requisition

## KITTING

Kitting simplifies work flow by reducing the time and effort required to repair and overhaul equipment. Everything needed to perform a task is packaged for convenient access. Advantages of kitting include:

- Customize the kit layout with customer-defined parts list, quantity and sequence
- Simplify orders with one line item on the purchase order
- Align kit content to work instructions
- Schedule delivery of kits to arrive as you need them
- Reduce inventory
